4/6/2018 12:39:35 PM(UTC-4)Direction:Incoming, +15136460186 (Greg Landsman) Quote I sent to Enquirer:

"My focus will be on empowering the residents and small business owners in the West End, whether this deal goes forward or not. I would have preferred FC make a deal with UC to continue at Nippert - and I'm all for FC and becoming an international soccer city, but I don't support sticking taxpayers with an enormous bill or forcing a stadium on a community that said no.

My priority from Day One has and will remain the residents of the West End. I want Cincinnati to become a Major League Soccer city. I've enjoyed attending FC Cincinnati games. But I don't think it should come at such a great expense to the taxpayers. Our city is struggling with many challenges that need our resources and attention, two of which are adequate affordable and income-based housing. This notion that we should continue to subsidize big business on such a large scale and wait for it to trickle down to the working class is antiquated and factually untrue. When we look at the disparities in our city of race and class, we have to remember that it's decisions like these that create and perpetuate inequity.

I'd do a few days to a week.

I'd asked Patrick to have teams of people working with these folks, and to ensure they were being cared for and treated with kindness. Sounds like he needs another shot at this. But they do need to be moved into better situations.

I wouldn't want to open it up indefinitely, but also said publicly today that the 72-hour deal shouldn't be the barrier to us getting this right.

The city is going to have several million in carry over, and we already have a million in the bank (auditor sent that letter last week saying we got more revenue than expected from property taxes). We use this, as long David is in, and draft our own ordinance funding these items with the fund balance. I think we should then drop the billboard tax, but PG wants to see it play out in court.

I called Mark at Dinsmore using the switchboard. I don't know Mark. You have a relationship with him. I couldn't pick him out of a line up. Tim Burke and I were at war at one point. But I knew he could help so I called him. I decided to call these folks because I was tired of watching others mess this up. And then I turned around and told you about every single conversation to be sure you were in the loop. You know all of them, some better than me. You could have called them too. Sorry I came to meeting with you and Mann, I thought the three of us working together on this was what we all wanted. Won't happen again.

Quote I sent to Enquirer:

"My focus will be on empowering the residents and small business owners in the West End, whether this deal goes forward or not. I would have preferred FC make a deal with UC to continue at Nippert - and I'm all for FC and becoming an international soccer city, but I don't support sticking taxpayers with an enormous bill or forcing a stadium on a community that said no.

My priority from Day One has and will remain the residents of the West End. I want Cincinnati to become a Major League Soccer city. I've enjoyed attending FC Cincinnati games. But I don't think it should come at such a great expense to the taxpayers. Our city is struggling with many challenges that need our resources and attention, two of which are adequate affordable and income-based housing. This notion that we should continue to subsidize big business on such a large scale and wait for it to trickle down to the working class is antiquated and factually untrue. When we look at the disparities in our city of race and class, we have to remember that it's decisions like these that create and perpetuate inequity.

I'd do a few days to a week.

I'd asked Patrick to have teams of people working with these folks, and to ensure they were being cared for and treated with kindness. Sounds like he needs another shot at this. But they do need to be moved into better situations.

I wouldn't want to open it up indefinitely, but also said publicly today that the 72-hour deal shouldn't be the barrier to us getting this right.

The city is going to have several million in carry over, and we already have a million in the bank (auditor sent that letter last week saying we got more revenue than expected from property taxes). We use this, as long David is in, and draft our own ordinance funding these items with the fund balance. I think we should then drop the billboard tax, but PG wants to see it play out in court.

I called Mark at Dinsmore using the switchboard. I don't know Mark. You have a relationship with him. I couldn't pick him out of a line up. Tim Burke and I were at war at one point. But I knew he could help so I called him. I decided to call these folks because I was tired of watching others mess this up. And then I turned around and told you about every single conversation to be sure you were in the loop. You know all of them, some better than me. You could have called them too. Sorry I came to meeting with you and Mann. I thought the three of us working together on this was what we all wanted. Won't happen again.

Maybe. Although Cranley will fight us. He'll likely just send to Amy's committee, where it will be voted down. And he'll never put on Council calendar to vote on. We need to talk to legal to see if we can vote for immediate consideration, which bypasses his ability to send to committee. Have you all seen stuff about KnockBack Nats closing this weekend for "renovations"? The same weekend as the Cincinnati Music Festival.
Have had several people reach out to me thinking it seems fishy that when a predominantly African American event is coming to downtown, they are "closing for renovations." Just wanted to see if you all have had anyone reach out and what you think.

If we all agree to vote for immediate consideration. Maybe. Although Cranley will fight us. He'll likely just send to Amy's committee, where it will be voted down. And he'll never put on Council calendar to vote on. We need to talk to legal to see if we can vote for immediate consideration, which bypasses his ability to send to committee.

This "sexual harassment training" is harassment itself. Not only have we had to listen to a video with people repeatedly using the actual n word, the presenter just shared a story of how someone in our own HR dept recently had to be reprimanded for saying something offensive about a name they couldn't pronounce.

Solicitor's office says it's not required to represent Black in this instance. Therefore will not seek outside Counsel for him. But that City Council could appropriate funds for him to have outside Counsel.

I hate to spend money on this, but will if necessary. Can't we get some pro bono help, like Judge Jones or that Blake Maislin? That dude would love the free PR.

Have you all seen stuff about KnockBack Nats closing this weekend for "renovations"? The same weekend as the Cincinnati Music Festival. Have had several people reach out to me thinking it seems fishy that when a predominantly African American event is coming to downtown, they are "closing for renovations." Just wanted to see if you all have had anyone reach out and what you think.

If we all agree to vote for immediate consideration. Maybe. Although Cranley will fight us. He'll likely just send to Amy's committee, where it will be voted down. And he'll never put on Council calendar to vote on. We need to talk to legal to see if we can vote for immediate consideration, which bypasses his ability to send to committee.

This "sexual harassment training" is harassment itself. Not only have we had to listen to a video with people repeatedly using the actual n word, the presenter just shared a story of how someone in our own HR dept recently had to be reprimanded for saying something offensive about a name they couldn't pronounce

Have you all seen stuff about KnockBack Nats closing this weekend for "renovations"? The same weekend as the Cincinnati Music Festival. Have had several people reach out to me thinking it seems fishy that when a predominantly African American event is coming to downtown, they are "closing for renovations." Just wanted to see if you all have had anyone reach out and what you think.

If we all agree to vote for immediate consideration. Maybe. Although Cranley will fight us. He'll likely just send to Amy's committee, where it will be voted down. And he'll never put on Council calendar to vote on. We need to talk to legal to see if we can vote for immediate consideration, which bypasses his ability to send to committee.

This "sexual harassment training" is harassment itself. Not only have we had to listen to a video with people repeatedly using the actual n word, the presenter just shared a story of how someone in our own HR dept recently had to be reprimanded for saying something offensive about a name they couldn't pronounce.

Michelle Dillingham reached out this morning about Rayshon Mack. In addition to everything that's been reported, she wanted to make sure we knew he continued to call her "Dopehead Dillingham" and a "junkie" during the entire campaign. She's been clean and sober for at least 20 years.

I don't know them and I am perfectly fine with holding off on confirmation. I also think we need to convene the rules committee and create a committee to vet appointees prior to a full council vote on confirmation. Additionally the Health Board is in the middle of some work that will be disrupted with the appointment of new people.

My issues with him. Especially responsible bidder. That I've worked on it for almost 6 years, I've made compromise after compromise when the other side wouldn't given an inch. Had 1,000 meetings. And then he goes last week and testifies for hours about it will basically bankrupt the city and prevent all AA people from getting work....without even talking to me. And also his lack of any kind of leadership on fixing the streetcar.

Wendell, also, I agree with the sentiment that rather than some trial style format where people are called up one by one to smear Harry, any grievances from John should be submitted as a written document, and Council can then proceed to handle on its own timeline and as it sees fit. But no more of this crap where due process if thrown out the window.

If it is Newport, I think we should be ready to help the West End pursue serious, balanced (inclusive) development. A coalition there is emerging to do great work. We should move quickly to help them. Not entirely sure what it looks like, but I think we should be prepared to announce and/or begin to work on efforts that will prioritize new (responsible) revitalization efforts in the West End WITH the West End.

We should also consider what we would need to ensure we don't lose businesses on the Banks, and that people who go to FC games in Newport come and spend money in Downtown/OTR. Maybe some coalition of business and transportation folks?

Both seem like good efforts, and will help to address the inevitable rhetoric that we are denying the West End hundreds of millions in new investments and that we could undermine an already fragile Banks business district.

Just got a call from Harry's lawyer and then from Harry regarding their being told by John that I am the fifth vote on a separation package for Harry. I haven't spoken to that little sucker! He just flat out lied to Garry and his lawyer. Is it too late to insert into the letter something making it clear that"we" do not support a buy-out for Harry?

Team, I knew there was one thing I meant to bring up that I forgot to on the call. 4 of us at a time need to have a conversation with Harry about things he needs to do to improve. I've overtly told him I believe he needs to seek some sort of counseling. But he needs to hear it collectively from us, and to frankly understand that his job depends on correcting certain things.

Wendell, I'm okay waiting if the others agree. HOWEVER, it's a conversation that must be had - sooner rather than later. Harry struggles with some things and needs to know we support him, but also bring certain expectations. I'll defer to the group on timing.

I too will abide by what the group decides. For me there is the recognition that Harry is under an enormous amount of pressure. I worry that he would view the conversation as us piling on. The timing isn't good.

Separate FYI: the #2 at the Sentinels just called me and asked that I pass this along: she and Lou Arnold just had a meeting with John, where she said John tried to divide and conquer the Sentinels from the other African-American groups, and also intentionally misrepresented the Manager's position. Not for public consumption, but she asked that you all be notified.

Is everyone good with this? Or have changes? "If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars."

Sorry. I am just finishing up.

I don't think we need a statement. And I don't like commenting on what Harry might or might not think or want. Also think some of it is unnecessary inflammatory. We are trying to bring some maturity to this ridiculous situation. To deescalate.

If we do something, I would suggest something short and simple.

But again, I don't think we need a statement.

Here is what I have personally sent to people and reporters:

"My position hasn't changed and a believe that's true for the majority. I don't support a big buyout. We need all the facts, and that's the point of the independent counsel. As I've said from the beginning, the issues need to be addressed in the next couple of weeks."

Here's another crack at it, even though this feels watered down to me and doesn't speak to why a buyout is really so offensive.

"We believe in a collaborative process, and look forward to working through this with everyone."

The current language feels like petty, "tit for tat" stuff. Again, short and simple seems right, and the first two paragraphs feel sufficient. If people want to add more flavor, they can do that individually. Lol.

If Harry gets enough outside money to make leaving palatable, we can't make him stay. I think it's bad precedent and it fixes nothing. The issues that gave rise to this situation remain in place. I agree there is something Cranley doesn't want to deal with. Cranley is feeling the heat. Let's hold together. Stay strong!

Michelle Dillingham reached out this morning about Rayshon Mack. In addition to everything that's been reported, she wanted to make sure we knew he continued to call her "Dopehead Dillingham" and a "junkie" during the entire campaign. She's been clean and sober for at least 20 years.

I don't know them and I am perfectly fine with holding off on confirmation. I also think we need to convene the rules committee and create a committee to vet appointees prior to a full council vote on confirmation. Additionally the Health Board is in the middle of some work that will be disrupted with the appointment of new people.

My issues with him. Especially responsible bidder. That I've worked on it for almost 6 years, I've made compromise after compromise when the other side wouldn't given an inch. Had 1,000 meetings. And then he goes last week and testifies for hours about it will basically bankrupt the city and prevent all AA people from getting work....without even talking to me. And also his lack of any kind of leadership on fixing the streetcar.

Wendell, also, I agree with the sentiment that rather than some trial style format where people are called up one by one to smear Harry, any grievances from John should be submitted as a written document, and Council can then proceed to handle on its own timeline and as it sees fit. But no more of this crap where due process if thrown out the window.

If it is Newport, I think we should be ready to help the West End pursue serious, balanced (inclusive) development. A coalition there is emerging to do great work. We should move quickly to help them. Not entirely sure what it looks like, but I think we should be prepared to announce and/or begin to work on efforts that will prioritize new (responsible) revitalization efforts in the West End WITH the West End.

We should also consider what we would need to ensure we don't lose businesses on the Banks, and that people who go to FC games in Newport come and spend money in Downtown/OTR. Maybe some coalition of business and transportation folks?

Both seem like good efforts, and will help to address the inevitable rhetoric that we are denying the West End hundreds of millions in new investments and that we could undermine an already fragile Banks business district.

Just got a call from Harry's lawyer and then from Harry regarding their being told by John that I am the fifth vote on a separation package for Harry. I haven't spoken to that little sucker! He just flat out lied to Garry and his lawyer. Is it too late to insert into the letter something making it clear that "we" do not support a buy-out for Harry?

Team, I knew there was one thing I meant to bring up that I forgot to on the call, 4 of us at a time need to have a conversation with Harry about things he needs to do to improve. I've overtly told him I believe he needs to seek some sort of counseling. But he needs to hear it collectively from us, and to frankly understand that his job depends on correcting certain things.

Wendell, I'm okay waiting if the others agree. HOWEVER, it's a conversation that must be had - sooner rather than later. Harry struggles with some things and needs to know we support him, but also bring certain expectations. I'll defer to the group on timing.

I too will abide by what the group decides. For me there is the recognition that Harry is under an enormous amount of pressure. I worry that he would view the conversation as us piling on. The timing isn't good.

Separate FYI: the #2 at the Sentinels just called me and asked that I pass this along: she and Lou Arnold just had a meeting with John, where she said John tried to divide and conquer the Sentinels from the other African-American groups, and also intentionally misrepresented the Manager's position. Not for public consumption, but she asked that you all be notified.

Is everyone good with this? Or have changes? "If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars."

3/18/2018 2:09:28 PM(UTC-4)Direction:Incoming, +15136460186 (Greg Landsman) Sorry. I am just finishing up.

I don't think we need a statement. And I don't like commenting on what Harry might or might not think or want. Also think some of it is unnecessary inflammatory. We are trying to bring some maturity to this ridiculous situation. To deescalate.

If we do something, I would suggest something short and simple.

But again, I don't think we need a statement.

Here is what I have personally sent to people and reporters:

"My position hasn't changed and a believe that's true for the majority. I don't support a big buyout. We need all the facts, and that's the point of the independent counsel. As I've said from the beginning, the issues need to be addressed in the next couple of weeks."

I think first two paragraphs better than nothing.... (even though again feels too watered down)

I'm ok with this but it is really watered down. If this is what it takes to gain consensus then ok. I think the third paragraph is important in that it offers a rationale for our statement. Greg I hope you will reconsider your thoughts on the third paragraph.

"We believe in a collaborative process, and look forward to working through this with everyone."

The current language feels like petty, "tit for tat" stuff. Again, short and simple seems right, and the first two paragraphs feel sufficient. If people want to add more flavor, they can do that individually. Lol.

If Harry gets enough outside money to make leaving palatable, we can't make him stay. I think it's bad precedent and it fixes nothing. The issues that gave rise to this situation remain in place. I agree there is something Cranley doesn't want to deal with. Cranley is feeling the heat. Let's hold together. Stay strong!

Tomorrow's Council meeting will surely be a battle. Cranley will be on the attack. Maybe more than he ever has,

This is an incredibly important moment of the next four years. Can they pick one of us off? If they can't, Cranley will either be forced to respect us...or he will explode. And I'd say it's 50/50 odds.

I don't know them and I am perfectly fine with holding off on confirmation. I also think we need to convene the rules committee and create a committee to vet appointees prior to a full council vote on confirmation. Additionally the Health Board is in the middle of some work that will be disrupted with the appointment of new people.

My issues with him. Especially responsible bidder. That I've worked on it for almost 6 years. I've made compromise after compromise when the other side wouldn't given an inch. Had 1,000 meetings. And then he goes last week and testifies for hours about it will basically bankrupt the city and prevent all AA people from getting work....without even talking to me. And also his lack of any kind of leadership on fixing the streetcar.

Wendell, also, I agree with the sentiment that rather than some trial style format where people are called up one by one to smear Harry, any grievances from John should be submitted as a written document, and Council can then proceed to handle on its own timeline and as it sees fit. But no more of this crap where due process if thrown out the window.

A coalition there is emerging to do great work. We should move quickly to help them. Not entirely sure what it looks like, but I think we should be prepared to announce and/or begin to work on efforts that will prioritize new (responsible) revitalization efforts in the West End WITH the West End. We should also consider what we would need to ensure we don't lose businesses on the Banks, and that people who go to FC games in Newport come and spend money in Downtown/OTR. Maybe some coalition of business and transportation folks? Both seem like good efforts, and will help to address the inevitable rhetoric that we are denying the West End hundreds of millions in new investments and that we could undermine an already fragile Banks business district. Just got a call from Harry's lawyer and then from Harry regarding their being told by John that I am the fifth vote on a separation package for Harry. I haven't spoken to that little sucker! He just flat out lied to Garry and his lawyer. Is it too late to insert into the letter something making it clear that"we" do not support a buy-out for Harry?

Team, I knew there was one thing I meant to bring up that I forgot to on the call. 4 of us at a time need to have a conversation with Harry about things he needs to do to improve. I've overtly told him I believe he needs to seek some sort of counseling. But he needs to hear it collectively from us, and to frankly understand that his job depends on correcting certain things.

Wendell, I'm okay waiting if the others agree. HOWEVER, it's a conversation that must be had - sooner rather than later. Harry struggles with some things and needs to know we support him, but also bring certain expectations. I'll defer to the group on timing.

I too will abide by what the group decides. For me there is the recognition that Harry is under an enormous amount of pressure. I worry that he would view the conversation as us piling on. The timing isn't good.

Separate FYI: the #2 at the Sentinels just called me and asked that I pass this along: she and Lou Arnold just had a meeting with John, where she said John tried to divide and conquer the Sentinels from the other African-American groups, and also intentionally misrepresented the Manager's position. Not for public consumption, but she asked that you all be notified.

You saw that on a larger scale during the Responsible Bidder wrangling. He tried to pit the Urban League, Ministers Alliance, CAA, and others against the NAACP, The Black Agenda, and more. Typical Cranley tactic. Don't forget that he will lie in a heart beat.

Is everyone good with this? Or have changes? "If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars."

Sorry. I am just finishing up.

I don't think we need a statement. And I don't like commenting on what Harry might or might not think or want. Also think some of it is unnecessary inflammatory. We are trying to bring some maturity to this ridiculous situation. To deescalate.

If we do something, I would suggest something short and simple.

But again, I don't think we need a statement.

Here is what I have personally sent to people and reporters:

"My position hasn't changed and a believe that's true for the majority. I don't support a big buyout. We need all the facts, and that's the point of the independent counsel. As I've said from the beginning, the issues need to be addressed in the next couple of weeks.

The current language feels like petty, "tit for tat" stuff. Again, short and simple seems right, and the first two paragraphs feel sufficient. If people want to add more flavor, they can do that individually. Lol.

Our position has not changed. We do not suppprt an increased buyout or believe that's responsible to the taxpayers.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out. Let's collect the needed facts quickly and calmly.

We believe in a collaborative process, and look forward to working through this with all stakeholders."

If Harry gets enough outside money to make leaving palatable, we can't make him stay. I think it's bad precedent and it fixes nothing. The issues that gave rise to this situation remain in place. I agree there is something Cranley doesn't want to deal with. Cranley is feeling the heat. Let's hold together. Stay strong!

needless to say, I'm fine with some grand bargain that's actually good - BUT the entire point of this is about how we govern and John needing to work collaboratively with the Democratic majority, not go running to Smitherman, Murray, Pastor and then see how we can pick off 2 more

We need to get Wendell and Mann to help us pass our fixes and encourage the administration to bring us addition, specific changes to work on if needed. 60-day pause will lead to another pause and another. If they support RB, they should vote with us and against the pause. So I'm against the pause. Unless someone can make a compelling case for why it's needed. Hasn't happened yet.

Hey guys. I'll post my statement around 10AM. Among other things, I say the following: "I will be a no vote on any agreement beyond giving the manager the 8-months that is already in his contract if he decides to leave on his own accord." You can mention that or not.

But I did decide to travel with my family this morning, and if John wants to have a revote on Wednesday, that's on him. My position won't change.

Since we don't have anything from FC, let's reschedule with Berding. I had something at 9:15 with the minority accelerator that I didn't want to miss. Plus, people snooping around with our schedules. Looks weird to be meeting with him before he even submits something to Council. Don't want to be playing games with Jeff...

I pretty strongly disagree. No one's making a decision. Myself included. But he's a stakeholder in a situation that we're in the middle of. And I'd rather him hear us out, than not. Especially before John thrusts something upon us. Hope you might be willing to re-consider. T, can you still please plan to join?

We need to get Wendell and Mann to help us pass our fixes and encourage the administration to bring us addition, specific changes to work on if needed, 60-day pause will lead to another pause and another. If they support RB, they should vote with us and against the pause. So I'm against the pause. Unless someone can make a compelling case for why it's needed. Hasn't happened yet.

Hey guys. I'll post my statement around 10AM. Among other things, I say the following: "I will be a no vote on any agreement beyond giving the manager the 8-months that is already in his contract if he decides to leave on his own accord." You can mention that or not.

But I did decide to travel with my family this morning, and if John wants to have a revote on Wednesday, that's on him. My position won't change.

Since we don't have anything from FC, let's reschedule with Berding. I had something at 9:15 with the minority accelerator that I didn't want to miss. Plus, people snooping around with our schedules. Looks weird to be meeting with him before he even submits something to Council. Don't want to be playing games with Jeff...

I pretty strongly disagree. No one's making a decision. Myself included. But he's a stakeholder in a situation that we're in the middle of. And I'd rather him hear us out, than not. Especially before John thrusts something upon us. Hope you might be willing to re-consider, T, can you still please plan to join?

We need to get Wendell and Mann to help us pass our fixes and encourage the administration to bring us addition, specific changes to work on if needed, 60-day pause will lead to another pause and another. If they support RB, they should vote with us and against the pause. So I'm against the pause. Unless someone can make a compelling case for why it's needed. Hasn't happened yet.

Hey guys. I'll post my statement around 10AM. Among other things, I say the following: "I will be a no vote on any agreement beyond giving the manager the 8-months that is already in his contract if he decides to leave on his own accord." You can mention that or not.

But I did decide to travel with my family this morning, and if John wants to have a revote on Wednesday, that's on him. My position won't change.

Since we don't have anything from FC, let's reschedule with Berding. I had something at 9:15 with the minority accelerator that I didn't want to miss. Plus, people snooping around with our schedules. Looks weird to be meeting with him before he even submits something to Council. Don't want to be playing games with Jeff...

I pretty strongly disagree. No one's making a decision. Myself included. But he's a stakeholder in a situation that we're in the middle of. And I'd rather him hear us out, than not. Especially before John thrusts something upon us. Hope you might be willing to re-consider. T, can you still please plan to join?

Hey. Anyone is able to make recommendations on mayoral appointments. At any time. In my 6 years, the dems or no group has ever made suggestions as a group. Although we could start doing it that way. But I just didn't want Cranley to say I never gave him suggestions of qualified, daily bus users.

Hey. Can we work together to pick the people to honor with resolutions for Pride this year? In the past, I've posted on Facebook asking people to nominate someone and explain why. And then go through the nominations to pick. Maybe we can both make that kind of post, or email, and then meet to mutually pick people? I usually do 4 people, 1 a week for the month of June.

I'm a no on emergency for these FCC ordinances.....to allow those organizing a petition drive the ability to attempt to collect enough signatures. I believe if at least 3 of us vote no on emergency, they get that ability.

"Acting City Manager Duhaney's decision to remediate the homeless encampment is made with the utmost consideration for the safety of the homeless individuals who are staying there, as well as people who live, work and visit downtown. Health department officials have confirmed an outbreak of Hepatitis, instances of HIV, and needle sharing. Police are conducting investigations into human and drug trafficking. This is a public health emergency and we are required to respond in a way that ensures safety. If we do not act immediately, we put everyone at risk. This is not a challenge that will be solved overnight. Mr. Duhaney is working to address this issue in a way that is both compassionate and practical."

Hey. Anyone is able to make recommendations on mayoral appointments. At any time. In my 6 years, the dems or no group has ever made suggestions as a group. Although we could start doing it that way. But I just didn't want Cranley to say I never gave him suggestions of qualified, daily bus users.

Hev. Can we work together to pick the people to honor with resolutions for Pride this year? In the past, I've posted on Facebook asking people to nominate someone and explain why. And then go through the nominations to pick. Maybe we can both make that kind of post, or email, and then meet to mutually pick people? I usually do 4 people, 1 a week for the month of June.

Hey. Can we work together to pick the people to honor with resolutions for Pride this year? In the past, I've posted on Facebook asking people to nominate someone and explain why. And then go through the nominations to pick. Maybe we can both make that kind of post, or email, and then meet to mutually pick people? I usually do 4 people, 1 a week for the month of June.

"Acting City Manager Duhaney's decision to remediate the homeless encampment is made with the utmost consideration for the safety of the homeless individuals who are staying there, as well as people who live, work and visit downtown. Health department officials have confirmed an outbreak of Hepatitis, instances of HIV, and needle sharing. Police are conducting investigations into human and drug trafficking. This is a public health emergency and we are required to respond in a way that ensures safety. If we do not act immediately, we put everyone at risk. This is not a challenge that will be solved overnight. Mr. Duhaney is working to address this issue in a way that is both compassionate and practical.

Cranley and Smitherman's comments on Streetcar text are exactly what is wrong with it. They continue to just blame Mark Mallory and the former admin instead of actually fixing the problems.

In this instance, I'm most amazed that they'd literally use the occasion of a dead man's funeral as an opportunity to attack the street car and attack Mallory

I like Jim Goetz and spoke with him for an hour last night, but I'm not going to be pressured or bullied into appointing him UNTIL there is first resolution on these private endowments. Just sharing my position with each of you - and recommend talking to Curp if you want to get into the weeds

I'm with you. And, by the way, while I like Goetz, I don't like the comments his partner has been making on Facebook about all of this.

Don't share this. So...Nickie Antonio is running for a state senate seat in Ohio and is trying to get the party endorsement. She brought a folding chair to her interview and said that her hero, Shirley Chisholm said, "If they don't give you a seat at the table, bring a folding chair." She literally brought a folding chair. Christie was appalled. Needless to say, she didn't get the recommendation for endorsement

no big rush, but would be good for you and me to brainstorm this city-appointed SORTA board seat together. You around at all by phone

tomorrow in the morning?

Morning T. Two things. 1) Harry Kangis let me know he had reached out to you, and basically made it sound like I was going to vote FOR Goetz fomorrow. That is incorrect, as I previously communicated to you. 2) I'm going to be about 30 minutes late to committee today, for which I apologize. The Chamber originally had an event scheduled for last September that got pushed back, and it was rescheduled for today 11am; I'll be there for the beginning and then duck out to get over to your committee.

From Wendell

I know you said you are tied up this afternoon but if there is any way you can get loose, even for just a little while, please make the 5:00PM meeting at the BA Hq. I'm guessing you know JC has thrown down the gauntlet to Harry. Resign or suffer a smear campaign. The gloves are off. Time to fight. Hope you can rearrange your schedule. Please advise. Thanks.

I don't feel strongly about the order, as long as sources aren't used up early that leave other priorities high and dry later in the process. In general, think best to reach consensus on all sources and all causes before any votes - a consensus which doesn't seem to exist yet. I told Greg earlier in the week there were a couple sources in your guys motion that I don't support (including taking trash from 100% to 150% increase), but not sure I've seen most recent draft. Going to bed now, but available to chat anytime in the morning.

Don't share this. So...Nickie Antonio is running for a state senate seat in Ohio and is trying to get the party endorsement. She brought a folding chair to her interview and said that her hero, Shirley Chisholm said, "If they don't give you a seat at the table, bring a folding chair." She literally brought a folding chair. Christie was appalled. Needless to say, she didn't get the recommendation for endorsement

Morning T. Two things, 1) Harry Kangis let me know he had reached out to you, and basically made it sound like I was going to vote FOR Goetz tomorrow. That is incorrect, as I previously communicated to you. 2) I'm going to be about 30 minutes late to committee today, for which I apologize. The Chamber originally had an event scheduled for last September that got pushed back, and it was rescheduled for today 11am; I'll be there for the beginning and then duck out to get over to your committee.

Morning. Why would he do that? He must've sent it to the city email in which case I will see it later this morning.

Thanks for the heads up on today.

From Wendell

I know you said you are tied up this afternoon but if there is any way you can get loose, even for just a little while, please make the 5:00PM meeting at the BA Hq. I'm guessing you know JC has thrown down the gauntlet to Harry. Resign or suffer a smear campaign. The gloves are off. Time to fight. Hope you can rearrange your schedule. Please advise. Thanks.

I don't feel strongly about the order, as long as sources aren't used up early that leave other priorities high and dry later in the process. In general, think best to reach consensus on all sources and all causes before any votes - a consensus which doesn't seem to exist yet. I told Greg earlier in the week there were a couple sources in your guys motion that I don't support (including taking trash from 100% to 150%). increase), but not sure I've seen most recent draft. Going to bed now, but available to chat anytime in the morning.

John expected this. Likely can't gather a quorum either. Not sure John has to be contacted regarding special session. In his absence, will the VM do? Doubt Smitherman will cross him on this though. May not be able to intervene on this one but we can establish rules for how to move forward in the future. Check with Law to see whether special session can proceed without mayor or vice-mayor? Can you (pres. proten) preside when the other two can/won't preside?

So, be nice to me! At least, keep your apparent disdain for me more discrete. Just being honest.

I'm a no on emergency for these FCC ordinances.....to allow those organizing a petition drive the ability to attempt to collect enough signatures. I believe if at least 3 of us vote no on emergency, they get that ability.

You an Cranley should co-chair the search to replace Caleb. Just announce it together. Lol. He hates him just as much as us.

So, be nice to me! At least, keep your apparent disdain for me more discrete. Just being honest.

no disdain for you at all. As I've told you a million times, Craig and I both really like you. This job requires us to challenge others. Question beliefs. Be skeptical until actual votes are taken. That isn't being mean...it's doing the job.

We are gonna take 73 more from TIF to free up other money to fully restore cintrifuse. That gets Pastor 3000% solid. And he's already getting the wrath of John. But Gary Lingrum and biz community will back him up as long as he gets the 250 for contrufuse

FYI. I just called Dave Bailey about a dog issue. As I was expelling the issue, he stopped me. Started crying. And told me his attorney called him in an hour ago, told him he had to retire or be fired by Harry later today. Said Harry suspects he is the one who is doing everything. And so he agreed to resign. He's spent his entire career in the police dept. And he is not the leak. This is not the way he deserves to go,

Amy's post btw, says the raises voted on "outside the collective bargaining process" is what led to this deficit. SHE VOTED FOR THE RAISES for the police and fire officer, which were 90% of the raises.

FYI. I just called Dave Bailey about a dog issue. As I was expelling the issue, he stopped me. Started crying. And told me his attorney called him in an hour ago, told him he had to retire or be fired by Harry later today. Said Harry suspects he is the one who is doing everything. And so he agreed to resign. He's spent his entire career in the police dept. And he is not the leak. This is not the way he deserves to go.

It's super super disappointing. Bailey is a good guy. Has spent his career working for this city. And HE IS NOT THE LEAKER! He just tried to make sure the Chief knew about wasteful spending.

FYI. I just called Dave Bailey about a dog issue. As I was expelling the issue, he stopped me. Started crying. And told me his attorney called him in an hour ago, told him he had to retire or be fired by Harry later today. Said Harry suspects he is the one who is doing everything. And so he agreed to resign. He's spent his entire career in the police dept. And he is not the leak. This is not the way he deserves to go.

The committees, like everything else, will be a push-pull-tug-negotiation, where no one quite gets what they want, but hopefully everyone can live with it. The key is reasonable, positive people like yourself. Congrats on taking office today - it's a big deal, and you'll continue to do big things.

this goes for all of us, I just think a lot of how stuff nets out is the result of 10 fairly strong-willed people deciding on things where perfection is elusive and the time-table is relatively short.

So what's the best argument that he's not qualified? That he's attacked this council, unions, and black leaders? Too controversial to be qualified. Something like that. Just want a solid argument when I get the call.....

- first things first, holding the manufacturer accountable including legally for the unacceptable defects
- creating a better and more direct chain of leadership for decision-making; as we've agreed I, right now, things are too much of a bank-shot for the city; we need more direct control to implement needed changes
- adjusting the hours and frequency so there's more service when people have shown they actually want it most
- creating better bus connectivity from the top of the route up to the most popular stops Uptown (i.e., simulating the original downtownuptown plan, but doing so with bus up the hill rather than with rail)
- if there was a private or philanthropic source, consider piloting a free period

Wondering what you all think of a cease fire/cooling off period, during which they both agree to say nothing more on the subject and focus on work. We bring in a pro bono mediator (or two), to help them get through the two weeks or however long it takes for us to put together a process to address the issues that have emerged. A special committee of my committee perhaps. And we ask Harry for weekly progress reports to ensure the work is continuing unabated, and a commitment from him that he will not make any personnel decisions (e.g. firing anyone). If we get the CBC types and NAACP and others to join us, might work.

fair question. I offered him another legit reason compromise and he immediately shot it down on two occasions (it was give Harry 6 months to seek employment elsewhere; no buy-out is necessary; he leave on his own terms so there's no racial inflammation, and council is actively involved in selection of new manager) - he wasn't having it.

Probably a 1 in West End. Happy to talk Oakley and all in for Nippert. He had so many chances to get WE on board, and they're not there. It's also so much money. But would feel better if he were to come to Council or submit something. After I thought about it a bit, and with folks looking at our calendar, I don't like the idea of us meeting with him. Especially if Jeff wants to cut some sort of deal. I trust you. Not him.

In my experience, I've always known Lieutenant Pettis to be a professional and effective police officer, who has served our community well. The Police Department needs to come together and achieve reconciliation. I have great admiration for our police officers, and we need them working collaboratively to ensure the highest levels of public safety."

When I talked to her, I said for sake of fairness, word "illegal" had to be taken out, and noted that whatever we're being accused of in a COAST/Smitherman lawsuit, Christopher is legally being accused of exactly the same (so she gave that a reference). I think you're exactly right to be both pissed and fired up.

"We welcome the opportunity to release these text messages. The very first instruction to the public law experts at Dinsmore was to review the messages for legal compliance and get them out as soon as possible. The politicization of this situation by some has wasted time and money. I look forward to getting back to the business of leading Cincinnati without the drama of those looking to divide and distract us from the good work being done all over our community."

Take it or leave it, but I'd make it a little more straightforward:

We're very glad this happened. The first thing we said to the lawyers was, 'get the texts out'. People have politicized this, which is unfortunate. We can do without this drama, and have everyone focus only on the business of leading the city. No more division, no more distractions - just work."

The committees, like everything else, will be a push-pull-tug-negotiation, where no one quite gets what they want, but hopefully everyone can live with it. The key is reasonable, positive people like yourself. Congrats on taking office today - it's a big deal, and you'll continue to do big things.

- first things first, holding the manufacturer accountable including legally for the unacceptable defects
- creating a better and more direct chain of leadership for decision-making; as we've agreed I, right now, things are too much of a bank-shot for the city; we need more direct control to implement needed changes
- adjusting the hours and frequency so there's more service when people have shown they actually want it most
- creating better bus connectivity from the top of the route up to the most popular stops Uptown (i.e., simulating the original downtownuptown plan, but doing so with bus up the hill rather than with rail)
- if there was a private or philanthropic source, consider piloting a free period

That's a round robin, no? Also not allowed? Just you or Tamaya call me after. I do not want to deal with sunshine rules allegations on top of this mess we're dealing with.

Wondering what you all think of a cease fire/cooling off period, during which they both agree to say nothing more on the subject and focus on work. We bring in a pro bono mediator (or two), to help them get through the two weeks or however long it takes for us to put together a process to address the issues that have emerged. A special committee of my committee perhaps. And we ask Harry for weekly progress reports to ensure the work is continuing unabated, and a commitment from him that he will not make any personnel decisions (e.g. firing anyone). If we get the CBC types and NAACP and others to join us, might work.

fair question. I offered him another legit reason compromise and he immediately shot it down on two occasions (it was give Harry 6 months to seek employment elsewhere; no buy-out is necessary; he leave on his own terms so there's no racial inflammation, and council is actively involved in selection of new manager) - he wasn't having it.

Yeah. Between drop off (I have kids in morning and can't get downtown until 9:10ish), my meeting with Darrin at 9:15 I don't want to cancel, and not wanting to get sucked into Jeff's stuff like this, I'm not going to cancel my minority accelerator meeting. Apologize for this. You can fill me in after the meeting. I'll be at City Hall most of day tomorrow.

I honestly to not begrudge wherever you are. And I'd only support the creation of what I believed was a genuinely good deal, which remains unclear if that's possible. But I also appreciate visibility whether there are 4 hard NO's - so I understand the terrain ahead

Probably a 1 in West End. Happy to talk Oakley and all in for Nippert. He had so many chances to get WE on board, and they're not there.
It's also so much money. But would feel better if he were to come to Council or submit something. After I thought about it a bit, and with folks looking at our calendar, I don't like the idea of us meeting with him. Especially if Jeff wants to cut some sort of deal. I trust you. Not him.

In my experience, I've always known Lieutenant Pettis to be a professional and effective police officer, who has served our community well. The Police Department needs to come together and achieve reconciliation. I have great admiration for our police officers, and we need them working collaboratively to ensure the highest levels of public safety."

When I talked to her, I said for sake of fairness, word "illegal" had to be taken out, and noted that whatever we're being accused of in a COAST/Smitherman lawsuit, Christopher is legally being accused of exactly the same (so she gave that a reference). I think you're exactly right to be both pissed and fired up.

We welcome the opportunity to release these text messages. The very first instruction to the public law experts at Dinsmore was to review the messages for legal compliance and get them out as soon as possible. The politicization of this situation by some has wasted time and money. I look forward to getting back to the business of leading Cincinnati without the drama of those looking to divide and distract us from the good work being done all over our community.'

Take it or leave it, but I'd make it a little more straightforward:

"We're very glad this happened. The first thing we said to the lawyers was, 'get the texts out'. People have politicized this, which is unfortunate. We can do without this drama, and have everyone focus only on the business of leading the city. No more division, no more distractions - just work.

The NAACP will be releasing a statement shortly. Here are draft talking points:

1.If we don't empower our middle class and local workers we will never reach the capacity we seek for minority's business.

 If the Administration wants to discuss how to expand more opportunities to local workers and small businesses we are ready to listen.
 However, we will not support any material changes or delays to the implementation of RBO. We have defended RBO in court for the last five years no more delays

4. It's a settle matter in the court let's move forward to create a safer more inclusive workforce.

We believe so, as does Columbia, South Carolina, which has similar state preemptions.

Basically, it's not a firearm, but rather an accessory, which opens up additional pathways for a ban:

Hi Dan, I'm not a father yet, so you'll have to tell me if this analogy holds up: If two of your children are behaving badly, is the approach to then go to their siblings who are behaving normally and demand that they correct they're badly behaved siblings behavior? My hunch is that you go the badly behaved children, and you demand better, and you don't enable them. Does that sound right? Would love to see the texts you're sending to John and Harry!

Juech just sent me this "get ahead.

I was invited to the city managers office today. I received a call during another meeting I was leading in my office on a matter of city business. I did not volunteer anything.

I was told that the solicitor was right to be concerned about her job. Then I was asked for a loyalty pledge to the manager and a letter of support.

When I said that I had to think about that - not even a yes or no - I was told by the manager that I had "made clear" where I stand.

I want the record to be very clear. I want there to be no doubt on the facts of what happened today.

I have told my personal, out of state lawyer all the same. This is all codified with multiple attorneys and will be public record."

Councilmember Mann Statement on Mayor Cranley and City Manager Black's Dispute

Harry Black and John Cranley are passionate public servants. I admire and respect them both.

With plenty of fault on each side, they obviously can no longer work constructively with each other. Calls for mediations, counseling, interventions and so on come too late to undo the damage in what is now a dysfunctional relationship.

The true victims are the citizens of this community and the serious and challenging issues we face, not the least of which is a huge budget shortfall for the fiscal year beginning July 1. Our city manager system (of which I am a strong supporter) assumes a strong collaborative partnership between the mayor and city manager. When that partnership does not exist, a change is essential.

Harry Black wants to leave his post. He has three possibilities.

(1)He can resign but under the ordinance hiring him, he then would entitled to no severance payments whatever.

(2)He can be terminated with the approval of five members of council. The ordinance hiring him entitles him to eight months' pay.

(3)He can separated under an agreed package, again with the approval of five members of council. (Most recently, I am advised, Mr. Black would agree to 18 months of pay, not the 24 months he presently asked for.)

My democratic colleagues will not support (2) and (3). Mr. Black could resign at considerable financial sacrifice. Otherwise, the current dysfunction continues, indefinitely I suppose.

My democratic colleagues hold the keys to unlock this impasse. I implore them to help us move beyond the current deadlock.

Harry needs to stop negotiating with the minority. There's a new story coming out today that says he wants to leave with 18 months.

Situation is endless topsy-tervy clusterfuck; Harry just called, said he's going to sign paperwork for a 1.5 year buyout. Force a vote from Council. I affirmed for him I'd be a "No" vote; not bilking taxpayers because Cranley has a personality disorder.

If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars.

'So I'm hearing mayor is planning a press conference the week of April 9 where public services, code and others possibly including Juech Paula and Luke will give statements about harry. I find it hard to believe the latter three would do this.

Harry's not aware of anything specific but who knows what they will say. He's trying to determine a strategy counteract someway.

Again, just speculation but wanted to share before your 11."

Oscar Bedolla had meeting with Cranley and Jim Benedict about air space above space rights above CET garage. After meeting, Benedict told Oscar "what the meeting was really about" in his words. He said Cranley promised the developer rights in exchange for a fundraiser for his campaign. Then there's evidence of Kincaid directing admin to give them rights, etc.

On brunch. That's the same day as the May Tea Dance. Not sure if you've heard about them, but Richard Cooke organizes and usually gets 200-300 people. I've never been. It starts at 4pm at Lisse in Covington. Maybe we could meet up for drinks somewhere around 2 and then head there for a drink?

And Amy! To my knowledge, she never had a single complaint about Harry until Cranley did. But she was the first to line up to fire him!?! I know we talked about it a couple of weeks (or maybe a month or so ago), but is it possible Harry knew about her cheating on her husband with another woman...and therefore wanted him gone? Just don't get it.

They had no answers to any of my questions. Greg voted no. I will tomorrow. They agreed they hadn't made a single presentation to Council or the community since September 2011. They also agreed to come back to Greg's committee with a full presentation, including photos that show what land will be expanded into the interstate, sound barriers, light pollution efforts, etc. Amy still wants to rush it through tomorrow even though this project is likely 10 years out.

Remember Mark Leno, who we had dinner with and was running for Mayor of San Fran? He was the big underdog going into the election yesterday. Polling had him like 13% points behind the frontrunner. But they have ranked choice voting. And right now, he's ahead 50.42 to 49.58! And could become San Fran's first openly LGBT Mayor!

Thanks. I'm not best friends who her, but Molly Wellmann is. Got frantic calls from Molly's husband this morning because Molly is having a nervous breakdown over it and Bee didn't know how to deal with it. The woman, Jenn Watts, is in ICU unconscious with her family. I'm most taking care of Molly, although heading to NKY pride shortly. Just trying to get an update from police, which is what her friends and family would like as well.

Hey Jamie Humes said you all talked about our wedding. So the hotel we're all staying in is completely booked because a lot more people than we expected are coming. HOWEVER, Barbara Aras and Dr. Jack McDonough (I think you know them) booked a 1 bedroom, but Barbara was recently diagnosed with breast cancer and going to be in treatment well pass our wedding. So if you all really want to go, that room is free! for now! Let me know

life is strange, having lunch today, go to bathroom, as I am walking back to table, this woman stops me, asks if I'm Chris Seelbach (didn't think I was you!) and says, "don't worry about that Brian Shrive guy...(holding up her pinky finger)...he has the smallest one I've ever seen. I know." I was like, "ummm....ok....have a nice day."

Hey! We're really looking forward to our "Bachelor Party" this Saturday, the start of a 3 week whirlwind for us, ending in our wedding on November 3.

The weather looks like it's going to be a perfect fall day. Sunny with a high of 60 and low of 45.

We'll be at our friend Doreen Beatrice's place in Union, Kentucky. The address is 10830 Big Bone Road, Union, Kentucky 41091.

You're welcome to come anytime after 1pm. We're asking Jon J Harmon, Jamie Humes, Katy Crossen & Tammy Riddle to be there by 1pm to rehearse a special part of the wedding in Mexico.

If you want to come closer to 3pm, we'll be finished rehearsing and ready to party!

We are camping, although we'll be surrounding a house on a farm, so there will be bathrooms, etc. But please bring a tent and camping supplies.

The party will have an open bar with Vodka, Bourbon, Rum & Beer (with all the mixers). If you want something else, feel free to bring.

We're also having dinner catered by A Catered Affair. And then a "New Orleans Texas Blues" band called Lagniappe of Cincinnati performing

We'll be sitting around a bon fire with seating provided. Lots more surprises! Smores, pumpkin carving, corn hole, etc.

On Sunday morning, we'll have bagels and coffee before heading home.

Let me know if you have any questions! Can't wait!

He's absolutely a psychopath. And he freely admits that he has mental problems. Contracted HIV as a result of years of drug fueled orgies. He comes from extreme poverty, so my biggest question is where he gets money from. Because he doesn't have a job. Anyway, I like Walruses (sp?) and Seals!

Hey. I talked to Tamaya right after the election about taking on the honors for Black History Month that Yvette did...and working with me on Women's History Month and Pride month. She said she wanted to do that. I texted her a few days about to make sure she had been working on Black History Month, but heard nothing back, Do you want to mention something to her? Or think I should text again?

Here are draft talking points: 1.If we don't empower our middle class and local workers we will never reach the capacity we seek for minority's business. 2. If the Administration wants to discuss how to expand more opportunities to local workers and small businesses we are ready to listen. 3. However, we will not support any material changes or delays to the implementation of RBO. We have defended RBO in court for the last five years no more delays. 4. It's a settle matter in the court let's move forward to create a safer more inclusive workforce. We believe so, as does Columbia, South Carolina, which has similar state preemptions.

Basically, it's not a firearm, but rather an accessory, which opens up additional pathways for a ban:

Hi Dan, I'm not a father yet, so you'll have to tell me if this analogy holds up: If two of your children are behaving badly, is the approach to then go to their siblings who are behaving normally and demand that they correct they're badly behaved siblings behavior? My hunch is that you go the badly behaved children, and you demand better, and you don't enable them. Does that sound right? Would love to see the texts you're sending to John and Harry!

Juech just sent me this "get ahead.

I was invited to the city managers office today. I received a call during another meeting I was leading in my office on a matter of city business. I did not volunteer anything.

I was told that the solicitor was right to be concerned about her job. Then I was asked for a loyalty pledge to the manager and a letter of support.

When I said that I had to think about that - not even a yes or no - I was told by the manager that I had "made clear" where I stand.

I want the record to be very clear. I want there to be no doubt on the facts of what happened today.

I have told my personal, out of state lawyer all the same. This is all codified with multiple attorneys and will be public record."

Councilmember Mann Statement on Mayor Cranley and City Manager Black's Dispute

Harry Black and John Cranley are passionate public servants. I admire and respect them both.

With plenty of fault on each side, they obviously can no longer work constructively with each other. Calls for mediations, counseling, interventions and so on come too late to undo the damage in what is now a dysfunctional relationship.

The true victims are the citizens of this community and the serious and challenging issues we face, not the least of which is a huge budget shortfall for the fiscal year beginning July 1. Our city manager system (of which I am a strong supporter) assumes a strong collaborative partnership between the mayor and city manager. When that partnership does not exist, a change is essential.

Harry Black wants to leave his post. He has three possibilities.

(1)He can resign but under the ordinance hiring him, he then would entitled to no severance payments whatever.

(2)He can be terminated with the approval of five members of council. The ordinance hiring him entitles him to eight months' pay.

(3)He can separated under an agreed package, again with the approval of five members of council. (Most recently, I am advised, Mr. Black would agree to 18 months of pay, not the 24 months he presently asked for.)

My democratic colleagues will not support (2) and (3). Mr. Black could resign at considerable financial sacrifice. Otherwise, the current dysfunction continues, indefinitely I suppose.

My democratic colleagues hold the keys to unlock this impasse. I implore them to help us move beyond the current deadlock,

If the Manager wishes to move on from his current role, we respect that decision. But the Council Majority remains firm that we are not signing off on paying someone extra to not do their job. That is neither fair nor responsible to the taxpayers.

Moreover, it is our understanding that, in fact, the Manager does enjoy his job; he simply doesn't like the idea of serving under the looming threat of a smear campaign. That, too, is understandable.

But asking the taxpayers to provide significant resources in order to avoid the impact of such a smear campaign would set a dangerous precedent and enable behavior which we do not approve of.

We reiterate our call for a ceasefire, and we remain committed to the thoughtful, fair, transparent next steps we have previously laid out.

We believe in the City Charter, we believe in honesty, and we believe in collaboration. All are welcome to join us in upholding these pillars.

The two individuals involved in this dispute will not be the leaders of its resolution. The Council Majority outlined a plan for a fair resolution two weeks ago. We're committed to implementing and overseeing that plan. People are looking for answers - not just about one person, but about this whole situation. I'm glad Mayor Cranley is willing to bring in a neutral third party who can look into the behavior, allegations and responses to not only Manager Black, but all parties involved, including the Mayor himself.

Oscar Bedolla had meeting with Cranley and Jim Benedict about air space above space rights above CET garage. After meeting, Benedict told Oscar "what the meeting was really about" in his words. He said Cranley promised the developer rights in exchange for a fundraiser for his campaign. Then there's evidence of Kincaid directing admin to give them rights, etc.

And Amy! To my knowledge, she never had a single complaint about Harry until Cranley did. But she was the first to line up to fire him!?! I know we talked about it a couple of weeks (or maybe a month or so ago), but is it possible Harry knew about her cheating on her husband with another woman... and therefore wanted him gone? Just don't get it.

They had no answers to any of my questions. Greg voted no. I will tomorrow. They agreed they hadn't made a single presentation to Council or the community since September 2011. They also agreed to come back to Greg's committee with a full presentation, including photos that show what land will be expanded into the interstate, sound barriers, light pollution efforts, etc. Amy still wants to rush it through tomorrow even though this project is likely 10 years out.

Remember Mark Leno, who we had dinner with and was running for Mayor of San Fran? He was the big underdog going into the election yesterday. Polling had him like 13% points behind the frontrunner. But they have ranked choice voting. And right now, he's ahead 50.42 to 49.58! And could become San Fran's first openly LGBT Mayor!

Hey Jamie Humes said you all talked about our wedding. So the hotel we're all staying in is completely booked because a lot more people than we expected are coming. HOWEVER, Barbara Aras and Dr. Jack McDonough (I think you know them) booked a 1 bedroom, but Barbara was recently diagnosed with breast cancer and going to be in treatment well pass our wedding. So if you all really want to go, that room is free! for now! Let me know.

Pley! We're really looking forward to our "Bachelor Party" this Saturday, the start of a 3 week whirlwind for us, ending in our wedding on November 3.

The weather looks like it's going to be a perfect fall day. Sunny with a high of 60 and low of 45. We'll be at our friend Doreen Beatrice's place in Union, Kentucky. The address is 10830 Big Bone Road, Union, Kentucky 41091.

You're welcome to come anytime after 1pm. We're asking Jon J Harmon, Jamie Humes, Katy Crossen & Tammy Riddle to be there by 1pm to rehearse a special part of the wedding in Mexico.

If you want to come closer to 3pm, we'll be finished rehearsing and ready to party!

We are camping, although we'll be surrounding a house on a farm, so there will be bathrooms, etc. But please bring a tent and camping supplies.

The party will have an open bar with Vodka, Bourbon, Rum & Beer (with all the mixers). If you want something else, feel free to bring.

We're also having dinner catered by A Catered Affair. And then a "New Orleans Texas Blues" band called Lagniappe of Cincinnati performing!

We'll be sitting around a bon fire with seating provided. Lots more surprises! Smores, pumpkin carving, corn hole, etc.

On Sunday morning, we'll have bagels and coffee before heading home.

Let me know if you have any questions! Can't wait!

Loved "Hey! We're really looking forward to our "Bachelor Party" this Saturday, the start of a 3 week whirlwind for us, ending in our wedding on November 3.

The weather looks like it's going to be a perfect fall day. Sunny with a high of 60 and low of 45, We'll be at our friend Doreen Beatrice's place in Union, Kentucky. The address is 10830 Big Bone Road, Union, Kentucky 41091.

You're welcome to come anytime after 1pm. We're asking Jon J Harmon, Jamie Humes, Katy Crossen & Tammy Riddle to be there by 1pm to rehearse a special part of the wedding in Mexico.

If you want to come closer to 3pm, we'll be finished rehearsing and ready to party!

We are camping, although we'll be surrounding a house on a farm, so there will be bathrooms, etc. But please bring a tent and camping supplies.

The party will have an open bar with Vodka, Bourbon, Rum & Beer (with all the mixers). If you want something else, feel free to bring.

We're also having dinner catered by A Catered Affair. And then a "New Orleans Texas Blues" band called Lagniappe of Cincinnati performing

We'll be sitting around a bon fire with seating provided. Lots more surprises! Smores, pumpkin carving, corn hole, etc.

On Sunday morning, we'll have bagels and coffee before heading home.

Let me know if you have any questions! Can't wait!"

Do you need me for quorum at meeting? We just got word that our flight is likely cancelled. Talked to Delta and they don't think they can get us there until next Wednesday, which obviously won't work....so we are scrambling to come up with options. If you don't need me for guorum. I need to work on this.

I am 100% against any kind of pause for responsible bidder. I've worked for 6 years on this, They've had 6 years to make it work. Finally the court system says it can be implemented. Everything they said in the committee today was garbage and not true. Our motion clears up all the concerns regarding minority participation. Be happy to talk through things. But hope we can count on your vote not to pause. PG, Landsman, Tamaya and I are all against a pause.

For Immediate Release:

From: Office of Councilmember Seelbach

Date: 10/16/18

Contact: Jon Harmon - tel:352-5211

Today, Councilmembers Chris Seelbach, Jeff Pastor & Wendell Young are announcing that they have come to an agreement regarding the vetoed FY18 City Carryover ordinance and on the multi-year community-led Liberty Street Road Diet Improvement Program.

"This is government working for its people," said Councilmember Jeff Pastor. "We are saving nearly half a million dollars while still accomplishing our goals of investing in public safety, leading on the heroin epidemic, fighting to close health disparities, and invests in jobcreating engines like CincyTech, Cintrifuse, and the Hillman Accelerator.'

The process would unfold with veto overrides scheduled for Wednesday, followed by an additional ordinance beings submitted that reduces the amount of TIF funds used for the Liberty Street Improvement Project by \$460,000 while making small reductions to the original Carryover ordinances appropriations. All three councilmembers are hopeful for a super majority of support on all related items.

"I'm thrilled that a bi-partisan coalition has been able to come to an agreement that gives us safer streets for pedestrians, a police recruit class 3-months sooner than expected, and helps reduce family homelessness with a new facility in Bond Hill," said Councilmember Chris Seelbach

Other items in the compromise agreement fund eviction prevention, Shotspotter technology to reduce gun violence, and funding for the creation of a Housing Court to work on quality of life issues in our City.

hey Wendell, great work on everything this week. Question for you: we've put together an event for this Tuesday evening at City Hall at 6pm for students to come share their feelings with various officials about gun violence and gun reform. Shouldn't last much longer than from 6-7pm. Especially given your career in law enforcement, would you be willing to be one of the officials on the dais listening to the students? Here's a link with more about the event: https://www.facebook.com/events/151351712198349/. Thanks for letting me know. - P.G.

Just got word that Monday at 9:00AM there will be a Parks Board meeting. An agenda item will an MOU hammered out by the Cranley appointees and the solicitor, regarding Parks finances. The senior members oppose the MOU and will likely vote it down. Expect fallout from Cranley. Just a heads-up. Share as you see fit.

Just talked with Dwight. He's upset about some deal Pastor is offering. I don't fully understand what's going on. Will you please call me?

Greg Landsman is a Democrat, but he is seen by many as somehow taking the place of Kevin Flynn, a somewhat conservative Charterite, who chose not to run for a second four-year term. Both are interested more in process than politics; and many assume that, like Flynn, Landsman will align himself with the agenda of Mayor John Cranley more often than not.

I see some of our elected officials are comfortably back in bullshit form, after Election Day and the holidays. I made a poor choice voting for P.G. Sittenfeld. He and Walrus Seelbach are two very big problems at City Hall. They are on a personal mission comparing penis size.

I would take @GregLandsman off the list.
He cant even figure out how 2 deal with streetcar issue. He's part of #gangol5 shadow gort. He only discusses @CincyPromise b/c that's ceiling of his public policy literacy. The bus discussion is over his head. Good guy but not very smart.

If im not mistaken, didnt @CincyCtyCouncil sign
